**TCS Ninja -2022: 11-Day Preparation Plan**  
**NOTICE**

Date: 25<sup>th</sup> August 2021

Dear students,

TCS-Ninja-2022 exam is scheduled on 12<sup>th</sup> September 2021 onwards and you have been preparing for TCS-Ninja-2022 on Shikuyaa App since 8<sup>th</sup> August 2021. It has been observed that many problems are faced by students and reported to us. We communicated the same to Shikuyaa Team. They promised us to resolve all the issues. However, time remaining is very short, therefore, based on your request and to reinforce your learning, it has been decided to provide additional training to increase the performance in TCS Ninja-2022. Therefore, we are collaborating with Face Academy to conduct TCS Ninja-2022 LastMile training program. It provides customized self paced learning platform and daily 6-Hour online classes from 9.00am to 12.00 Noon & 1.00pm to 4.00pm) from **26th August to 5th September 2021** for 11 days (6Hours/day X 11 days=66-Hours).

As most of you have already attended programming training in your second year and also attended InfyTQ-2022 and Aptitude training in the month of March this year, preparing TCS Ninja-2022 in 11 days would not be challenging for you.

It is also decided that the participating in and learning of this course will be mandatory and considered as a part of internship as per DBATU university curriculum. If you are **NOT REPORTING TIMELY to the Mentor** or **REMAIN ABSENT** or **REMAIN IRREGULAR** or **NOT PERFORMING WELL** during 11-day training, your performance will be evaluated by your mentor and based on performance in the training; grades for the same will be given by your mentor.

Wish you happy learning and preparation of TCS Ninja-2022.
