A Report on Industrial Visit at Infosys, Mysuru in June-2019

Introduction:

Industrial visits are an essential part of the academic curriculum in most of the Graduate and Post-graduate courses. Being a part of interactive learning, such educational visits give students a major exposure to real working environments along with a practical perspective of a theoretical concept relevant to their domain. In addition to that, industrial visits bridge the widening gap between theoretical learning and practical exposure by giving students the first-hand exposure to identify the inputs and outputs for different business operations and processes performed at the workplace. One such Industrial visit at Infosys Development Centre, Mysuru, was organized by the Training and Placement Cell, MGM College of Engineering, Nanded in March 2023.

Objective:

The primary objective of the industrial tour was to provide students with insights into the IT industry, observe real-world applications of theoretical knowledge, and understand the operational processes of a leading technology company.

- Opportunity to interact with Industry Experts
- Networking opportunities while building a good relationship with companies
- Experience how professionals live, learn about various management concepts like Just in Time and how they are put into action
- Endless chats, selfie sessions, bus games, friendly conversations with faculty members

Activities and Observations:

Welcome and Introduction

Upon arrival, we were greeted by the Infosys team, who provided a brief overview of the company's history, mission, and values. This introduction set the stage for understanding the scale and impact of Infosys in the IT sector.

Presentation

A detailed presentation highlighted:

- Core Services: Software development, consulting, and business process outsourcing.
- Global Presence: Operations in over 50 countries with a diverse client portfolio.
- Innovation: Focus on emerging technologies like AI, machine learning, and cloud computing.

Facility Tour

The guided tour of the development center showcased:

- **Workspaces:** Modern, collaborative environments designed to foster creativity and productivity.
- Innovation Labs: Areas dedicated to research and development in cutting-edge technologies.
- Sustainability Initiatives: Eco-friendly practices implemented within the center.

Interactive Session

Students engaged in a productive discussion with Infosys professionals. Topics included:

- Career paths in the IT industry
- Skills in demand and the importance of continuous learning
- Insights into project management and teamwork in real-world scenarios

Glimpses of Industrial Visit:

Visit to Infosys Development Center, Mysore (15th June 2019)

Q&A Session

Students had the opportunity to ask questions regarding:

- Internship and job opportunities at Infosys
- Work-life balance in the tech industry
- Current trends and challenges in the IT sector

Feedback

Students expressed appreciation for the informative sessions and the opportunity to interact with industry professionals. Many found the experience motivational, reinforcing their career aspirations in technology.

Conclusion

The industrial tour to Infosys Development Center in Mysore was a valuable experience that provided practical insights into the IT industry. It helped bridge the gap between academic knowledge and real-world application, inspiring students to explore potential career paths within the tech field.

Acknowledgments

We would like to thank Infosys for hosting our group and providing an enriching experience. Special thanks to the team members who facilitated the sessions and shared their expertise.
