My experience at M.G.M College of Engineering, Nanded, was truly life-changing. The education I received went beyond textbooks and exams, teaching me to approach problems with creativity and a mindset geared toward innovation. The Professors of Department of Civil Engineering were not just teachers but mentors who played an instrumental role in shaping my career. The college environment encouraged collaboration and teamwork, helping me develop essential skills crucial in today's interconnected world.

We are grateful to Dr. Mrs. Geeta S. Lathkar Madam; her influence on our lives will always be remembered. Beyond academics, the college also offered numerous opportunities for personal growth. Whether it was participating in technical fests, engaging in extracurricular activities, or taking on leadership roles in various student organizations, every experience contributed to my overall development. These experiences taught me the importance of balancing work and life, of being adaptable and resilient, and of the value of a well-rounded personality.

I am proud to be an alumnus of an institution that not only educates but truly empowers its students to excel in all walks of life.

B.E. CIVIL, Year of Graduation: 2000

In my journey from a curious youngster to a certified civil engineer through MGM, I gained valuable experiences that have shaped my life. Choosing the Profession of Arms, I became a Soldier, a tough but immensely satisfying role where I could apply the learnings and values instilled by my esteemed teachers and seniors. Along with technical knowledge, MGM provided invaluable lessons in ethics, respect, interpersonal relationships, hard work, time and financial management, as well as ample opportunities for recreational activities. The Techlife (Trekking/Mountaineering) Club and the Astro Club were a great hit with the students. The night spent observing a Leonid Shower will forever remain etched in my mind.

The most crucial lesson from my MGM days was the value of making good friends, who have remained a constant source of support. My advice to fellow engineers is to continuously seek knowledge, strive for technical excellence, and prioritize physical, mental, and financial well-being alongside professional endeavors. Travel as much as you can. My Best wishes for all of you to make your parents, your teachers and your Country Proud. JAI HIND

BE CIVIL, Year of Graduation: 2009

Firstly, I would like to thank the MGM family from the bottom of my heart. I would also like to express my gratitude to my Civil Engineering Department, which has been instrumental in helping me improve both professionally and as a person. Learning is enjoyable at MGMCOE because of the passionate, helpful, and motivating faculty.

My ability to endure the worst and achieve the best was greatly enhanced by the rigorous curriculum of MGM. Based on this, I would like to highlight that, as a government officer, I believe my ability to manage various responsibilities stems from the foundation laid during those transformative four years of college.

I am grateful to the college for my success and wish them continued success in the future. I'm proud to call myself a "MGM alumna"..!

**Tanaji Hussekar,
Executive Engineer,
Swami Ramanand Teerth Marathwada University, Nanded.
B.E. CIVIL, Year of Graduation: 1996**

There weren't many government engineering colleges in Maharashtra when I finished my 12th grade in 1988; in the meantime, private engineering colleges were granted permission by the Government of Maharashtra at the time. The Honorable Chairman of MGM Shri Kamalkishorji Kadam led the establishment of the MGM's College of Engineering, Nanded.

Higher education facilities were made available to Marathwada's rural students at Nanded. Because of the excellent faculty of MGM that educates the students, college graduates now hold important jobs both in India and around the world.

The Mahatma Gandhi Mission-run Engineering College provided me with excellent education and guidance, which is why I was able to work as the "Executive Engineer" of Swami RamanandTeerthMarathwada University, Nanded.

I want to stay forever indebted to the Respected Teachers of Civil Department and Institute for helping me succeed to this point.

Ashish Nikam

Squadron Leader, Flying (Pilot), Indian Air Force

B.E. CIVIL, Year of Graduation: 2013

As a former student, I am grateful of the enriching experience I had at MGM. The unwavering support from the Director of the Institute Dr. Mrs. Geeta S. Lathkar Madam and faculty played a crucial role in my overall development. The Director maintained an open-door policy, fostering a welcoming environment that encouraged students to voice their ideas and concerns. This accessibility cultivated a culture of collaboration and innovation.

The faculty members are not only experts in their fields but also genuinely contributed in our success. Their mentorship and guidance was invaluable, often extending beyond academics to include career advice and personal development. Workshops and guest lecturers from industry professionals bridged the gap between theory and practice, enhancing our learning experience.

Extracurricular activities were another major highlight. The various clubs and technical fests provided opportunities to apply our skills in real-world scenarios, promoting teamwork and creativity. These experiences were instrumental in shaping my leadership abilities.

Moreover, the institute focus on holistic education, through cultural events and sports, fostered a sense of community and camaraderie among students. Overall, my time at MGM, laid a strong foundation for my career, and I am thankful for the supportive environment that continues to empower future engineers and professionals like me.

B.E. CIVIL, Year of Graduation: 2006

As an alumna of M.G.M College of Engineering, Nanded, I reflect on my time with immense pride and gratitude. The education I received extended beyond traditional learning, emphasizing creativity and critical thinking. The support from my professors was instrumental—they were not merely educators but mentors who pushed me to exceed my limits and strive for excellence. The college provided numerous opportunities for development outside of the classroom. Every activity I participated in, whether it was community service, sports, or extracurricular activity, contributed in my overall growth. I now have a broad perspective and a solid professional foundation thanks to these experiences. These experiences taught me the importance of adaptability, resilience, and balancing professional and personal growth.

I am honored to be an alumna of MGM and am deeply grateful for the opportunities the college provided me and take great pride in representing an institution that truly empowers its students to excel across all facets of life.

B.E. CIVIL, Year of Graduation: 2006

As a graduate of the MGM College of Engineering, Nanded, I attribute my career achievements to the education and skills that I acquired there. The college and its professors played a pivotal role in shaping my professional journey, particularly in my current role as an Information Security Advisor. The rigorous engineering curriculum instilled in me a strong analytical mindset and problem-solving skills, which have been invaluable in my transition to the field of Cybersecurity. Beyond technical knowledge, my professors emphasized the importance of continuous learning and adaptability, crucial in the ever-evolving landscape of Cybersecurity. Mentorship was another key aspect of my college experience, as my professors provided guidance and support, helping me navigate both academic and career-related decisions. The collaborative environment at the college also helped me build a network of peers and professionals, which continues to be a source of support and opportunity. In summary, MGM's College of Engineering, Nanded provided me with the skills, mindset, and mentoring that were essential for the development of my career. I am proud to be an alumna and grateful for the positive impact the college and its professors have had on my professional life.

B.E. CIVIL, Year of Graduation: 2013

It gives me immense pride and pleasure to thank my alma mater for nurturing me to take on a world full of challenges. The MGM College has been the launch pad for my success. The time I spent in our college not only prepared me academically well but also prepared me for the unknown and unseen.

From state-of-the-art facilities to vibrant extracurricular activities, our college has provided me with a holistic experience that has shaped me into a well-rounded personality. The faculty and staff of our college had been the bedrock for shaping my future. They had been a constant guiding light, always illuminating the path to excellence and inspiring me to reach new heights. I am thankful to our Director, Dr. Geeta Lathkar Madam, Dr. Pattewar sir, and my lovely Civil Engineering Department lecturers and staff for being my backbone and supporting me throughout the most educative and enriching four years of my life. I am honored to be part of this MGM family, and I will always cherish the memories and lessons learnt within these walls.
