MGM's College of Engineering Nanded  
Training and Placement Cell

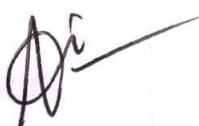

**NOTICE**

Date: 30th Oct 2023

All students of SYCSE and TYCSE are hereby informed that they should learn the following courses on Infosys Springboard platform as a part of internship and earn the course completion certificate before the end of semester. It is expected to produce the certificate at the time of submission.

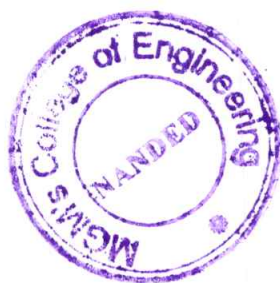

You will be evaluated and graded by your mentors based on performance on timely completion of assignments and earning of course completion certificate and certificate of achievement.

**Training and Placement Cell**

**Activity Report**

**Course Title:** Associate in IT Foundation Skills (Python)

**Platform:** Infosys Springboard

**Duration:** Online (30/10/2023 to 30/05/2024)

**Participants:** Third Year CSE Students (107)

**Course Objectives**

The course aims to:

1. Provide a strong foundation in Python programming, covering both fundamental and advanced concepts.
2. Develop proficiency in problem-solving using algorithms and data structures.
3. Introduce object-oriented programming and its practical applications in Python.
4. Equip learners with database management skills, including relational and NoSQL databases.
5. Familiarize learners with software engineering principles and Agile development methodologies.
6. Enable the application of acquired skills in real-world IT scenarios.

## Overview of the Course

The Associate in IT Foundation Skills Course was introduced as part of a skill enhancement initiative for Third Year Engineering students. Hosted on the Infosys Springboard platform, the course aimed to strengthen students' understanding in Python, Database and Software Engineering concepts and enhance their coding proficiency. Designed as a self-paced program, it enabled students to learn independently while managing their academic commitments. Participants registered on the Infosys Springboard platform and enrolled in the Associate in IT Foundation Skills, which featured a combination of video lectures, reading materials, and hands-on coding assignments. Self-assessment quizzes were included after each module to evaluate understanding, and faculty conducted regular check-ins to track progress and address queries. To earn certification, students were required to complete a final assessment. By successfully completing this certification students were able to: 1. Code, test and debug Python programs 2. Write and execute SQL queries 3. Know the essential software development processes and practices

Key achievements during this program include successfully completing all modules, which involved practical exercises and assessments, gaining hands-on experience in designing, implementing, and managing Python-based solutions, and building a solid foundation in database systems and software engineering concepts.

## Course Modules

### 1. Programming Fundamentals using Python - Part 1

- **Duration:** 43 hours 25 minutes
- **Description:** Introduction to Python basics, syntax, data types, and control structures.

### 2. Programming Fundamentals using Python - Part 2

- **Duration:** 40 hours 13 minutes
- **Description:** Advanced topics in Python such as functions, modules, error handling, and file operations.

### 3. Object-Oriented Programming using Python

- **Duration:** 46 hours 13 minutes

- **Description:** Concepts of object-oriented programming, including classes, objects, inheritance, polymorphism, and encapsulation.
4. **Data Structures and Algorithms using Python - Part 1**
    - **Duration:** 29 hours 27 minutes
    - **Description:** Introduction to data structures (lists, stacks, queues) and algorithms for searching and sorting.
  5. **Data Structures and Algorithms using Python - Part 2**
    - **Duration:** 37 hours 41 minutes
    - **Description:** Advanced data structures (trees, graphs) and algorithm design techniques.
  6. **Database Management System - Part 1**
    - **Duration:** 63 hours 50 minutes
    - **Description:** Fundamentals of database management, SQL queries, normalization, and relational database design.
  7. **Database Management System - Part 2**
    - **Duration:** 40 hours 19 minutes
    - **Description:** Advanced topics in database management, including stored procedures, triggers, and database security.
  8. **Introduction to NoSQL Databases**
    - **Duration:** 7 hours 26 minutes
    - **Description:** Overview of NoSQL databases, their applications, and differences from relational databases.
  9. **Software Engineering and Agile Software Development**
    - **Duration:** 1 hour 50 minutes
    - **Description:** Basics of software engineering principles and an introduction to Agile methodologies.

## Learning Outcomes

By the end of the course, learners will be able to:

1. Write efficient, modular, and maintainable Python programs using advanced concepts.
2. Analyze and implement appropriate data structures and algorithms for specific problems.
3. Design and develop object-oriented solutions using Python.
4. Create and manage databases using SQL, and understand the principles of NoSQL databases.
5. Apply Agile practices in software development projects.
6. Develop IT solutions integrating software engineering principles and best practices.

## Feedback for the Course

1. The course covers all essential topics, from Python basics to advanced database management, providing a holistic learning experience.
2. The self-paced structure allows learners to progress at their convenience.
3. The progression from basics to advanced topics ensures gradual and effective learning.
4. Regular check-ins by faculty ensured students received timely guidance and feedback, enhancing the learning experience.
5. The final assessment and certification added value to students' résumés, providing an industry-recognized credential.

## Associate in IT Foundation Skills (Python)

This certification tests your understanding in Python, Database and Software Engineering concepts

 Complete all the pre contents to take certification.

### Learning Progress

This status may take few minutes to reflect if you have made progress on some resources in this content recently

Status: Open

### Completion Certificate

You can earn a certificate on completing this content
